# WHAT HAS BEEN LEARNT?

- Try & test a range of TNE models - continuing to refine and review what we do
- Every partnership has different goals and what has become increasingly important to us is understanding the *long-term potential* of these opportunities and how they might lead to further collaboration within the partner institution or region

## Vital for success:

- Academic champions/leadership at both sides of the partnership
- Management teams/support structures to monitor progress and success at each end
- A robust business plan
- Regular face-to-face meetings/visits
